

The LEADSTACKER

Number 8

July, 1985

IN THE PAST couple of months this publication and its printer have received several extremely nice comments from different members. I would like to take a little space to publicly thank Ken Davis, Fred Liddle, and Dave Tribby.

Ken Davis' several publications are not typographic works of art but I marvel at his ability at writing. I get the feeling that words just spring from Ken's mind through his fingers and typewriter, and onto the paper like an Ozark creek tumbling through the hills. When I write, it's like trying to paddle *up* that creek in an overloaded canoe. I wish my writing was interesting and fun like Ken's.

Fred Liddle's contributions to the bundle and the AAPA are evident every month. I think that anyone who edits and prints the *American Amateur Journalist* deserves, at least, a personal expression of gratitude from *every* member of our organization. I consider a compliment from Fred a considerable one due to his outstanding ability.

Having been a member for less than a year, I have not seen Dave Tribby's work, but his presence on the Board of Directors of the AAPA leads me to assume that he is held in esteem by most of the members.

Thank you, gentlemen; recognition from people like you, does me the greatest honor.

THE GRASS is knee-high in places, much landscaping to be done around the house, many glass projects awaiting attention, and I buy 140 cases of type. The shop is getting crowded, there are many fonts I don't use, therefore I am offering some things for sale.
